

Douglas A. Ducey, Governor
John S. Halikowski, Director

Hello.

At the Arizona Department of Transportation, one of our goals is making transportation personal by showing how it improves the quality of life in this state.

In this envelope is a chance for you to share how transportation affects your life. And to provide information that will help ADOT and others decide what goes into tomorrow's transportation system, from roads to public transportation to bike paths.

Taking part in the National Household Travel Survey requires just a few easy steps with one purpose: We want to hear your travel story. Your answers are valuable no matter how you get from place to place – even if you don't drive or travel much at all.

I want to assure you that the personal information you provide will remain confidential by law. It won't be linked in any way to the crucial data this national survey will provide.

If you have questions about participating, you'll find information on ADOT's website at azdot.gov/NHTS.

I hope you'll say yes to this rare opportunity to help us create an even more valuable transportation system for Arizona.

Thank you.

Sincerely,

John S. Halikowski
Director
